'We turn great ideas into amazing apps'

At Strategic App Solutions, we live for challenges and design for your users. We analyze, design and develop mobile applications from the simple to the sophisticated for brands and companies. We are an agile team of product designers and developers motivated by technology and user experiences. And believe that only the combination of technical perfection and well-conceived pixel perfect design lead to compelling applications and inspiring user experiences. We deliver application essentials to your fingertips. *Functional, flawless and easy to use!*

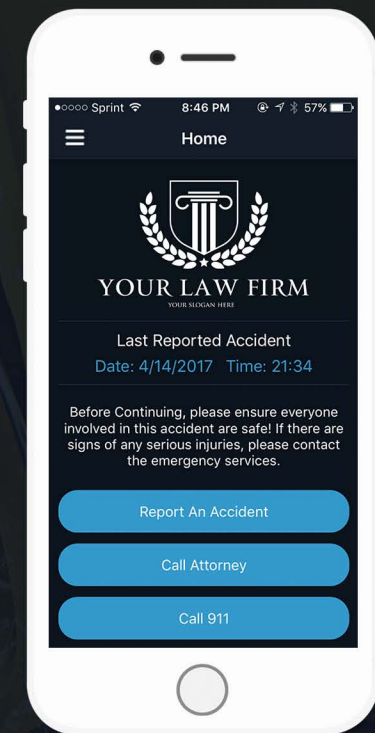

11681 Seminole Blvd, Largo, FL 33778

BRIDGING THE GAP BETWEEN YOUR FIRM AND YOUR CLIENT

Accident Kit

Helps clients collect and report all info at the scene of an accident. Functionalities include:

- ✓ **Take Photos**
Capture Photos or Upload From Gallery
- ✓ **Report Location**
GPS Enabled Location Reporting
- ✓ **Passenger/Driver/Witness details**
Capture Passenger/Driver/Witness details
- ✓ **Insurance Details**
Add user or driver insurance details

Triggered Push Notifications

Immediately communicate with your clients. Spark client interactions with your website, social media, or other advertising campaigns

Nearby Services

Enable clients to locate nearest hospitals, police station, tow-trucks, and auto-repairs during the time of an emergency

Firm Profile

Educate your client about your legal firm, their offerings, contact details and divert them to your website and social media

Client Profile

Capture important details about your clients such as name, email, address, contact, and insurance details

Accident Guide

An extensive, informative guide that helps clients understand the accident reporting process throughout the app

Accident History

Keep a track of your past reported accidents along with the captured witness/passenger information

Emergency Contacts

Add emergency contacts for the victims of an accident that comes handy at the time of an incident

Client Referral

Enables users to quickly refer your app to a family or friend via Text Message, Email or Facebook

Call 911 or Attorney

Call 911 or Attorney directly from the home screen of the application with a single tap

WEB PORTAL FOR ATTORNEYS

Incidents

Display all incident data such as date and time, address, client name, phone, email, location, witness and insurance details

Users

Display all app user data such as user_id, name, email, phone, address, created date, and emergency contacts

Push Notification

Send custom messages to all, or a specific list of clients from a designated push notification message box

Export Data

Export all incidents and users data with a single click to an Excel .csv format
